Installation

The hook should be mounted as shown in the image (with the blind nuts on the horizontal).

Warning: Hooks are no stronger than the anchors or walls to which they are attached and, therefore, must be firmly secured in order to support the loads for which they are intended. Not recommended for mounting on back of doors.

Important: Installation instructions and current rough-in details should be furnished with each fixture. Do not rough in without certified dimensions. Dimensions are subject to manufacturer's tolerance of +/-10mm.
