

SFP9395X1

Category	90cm
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Cooking method	Thermoseal
Cleaning system	Pyrolytic
EAN code	8017709239381

Aesthetics

Aesthetic	Classic	Serigraphy type	Symbols
Colour	Stainless steel	Door	With 2 horizontal strips
Finishing	Fingerproof	Handle	Classic
Design	Flat	Handle Colour	Inox
Material	Stainless steel	Logo	Embossed
Type of steel	Brushed	Control knobs	Classic
Glass Type	Eclipse	Controls colour	Steel effect
Serigraphy colour	Black		

Controls

			
Display name	CompactScreen	No. of display languages	11
Display technology	TFT	Display languages	Italiano, English (UK), Français (FR), Nederlands, Español (ES), Português (PT), Svenska, Русский, Deutsch (DE), Dansk, English (AU)
Control setting	Knobs	No. of controls	2

Programs / Functions

No. of cooking functions	10
Automatic programmes	50
Customisable recipes	10

Traditional cooking functions

Static	Fan assisted	Circulaire
Turbo	Eco	Large grill
Fan grill (large)	Circulaire + grill	Base
Fan assisted bottom		

Other functions

Defrost by time	Defrost by weight	Proving
Plate rack/warmer	Sabbath	

Cleaning functions

Pirolysis	Pirolysis eco
-----------	---------------

Options

Time-setting options	Delay start and automatic end cooking	Smart cooking	Yes
Minute minder	Yes	Showroom demo option	Yes
Controls Lock / Child Safety	Yes	Rapid pre-heating	Yes
Other options	SmartCook system, Keep warm, Eco light		

Technical Features

Minimum Temperature	30 °C	Heating suspended when door is opened	Yes
Maximum temperature	280 °C	Door opening type	Standard opening
No. of shelves	5	Door	Cool
N. of fans	3	Removable door	Yes
No. of lights	2	Full glass inner door	Yes
Light type	Halogen	Removable inner door	Yes
User-replaceable light	Yes	Total no. of door glasses	4
Light Power	40 W	Soft Close hinges	Yes
Light when door is opened	Yes	Cooling system	Tangential
Lower heating element power	1700 W	Cooling duct	Double
Upper heating element - Power	1200 W	Speed Reduction Cooling System	Yes
Grill element - power	1700 W		

Large grill - Power 2900 W
 Circular heating element 1850 W
 - Power
 Circular heating element 1850 W
 2 - Power

Door Lock During Pyrolysis Yes
 Usable cavity space dimensions (HxWxD) 371x724x418 mm
 Temperature control Electronic
 Cavity material Ever clean Enamel

Performance / Energy Label

Energy efficiency class A+
 Net volume of the cavity 115 l
 Energy consumption per cycle in conventional mode 0.84 kWh
 Energy consumption in conventional mode 3.02 MJ

Energy consumption in forced air convection 5.22 MJ
 Energy consumption per cycle in fan-forced convection 1.45 kWh
 Number of cavities 1
 Energy efficiency index 81,6 %

Accessories Included

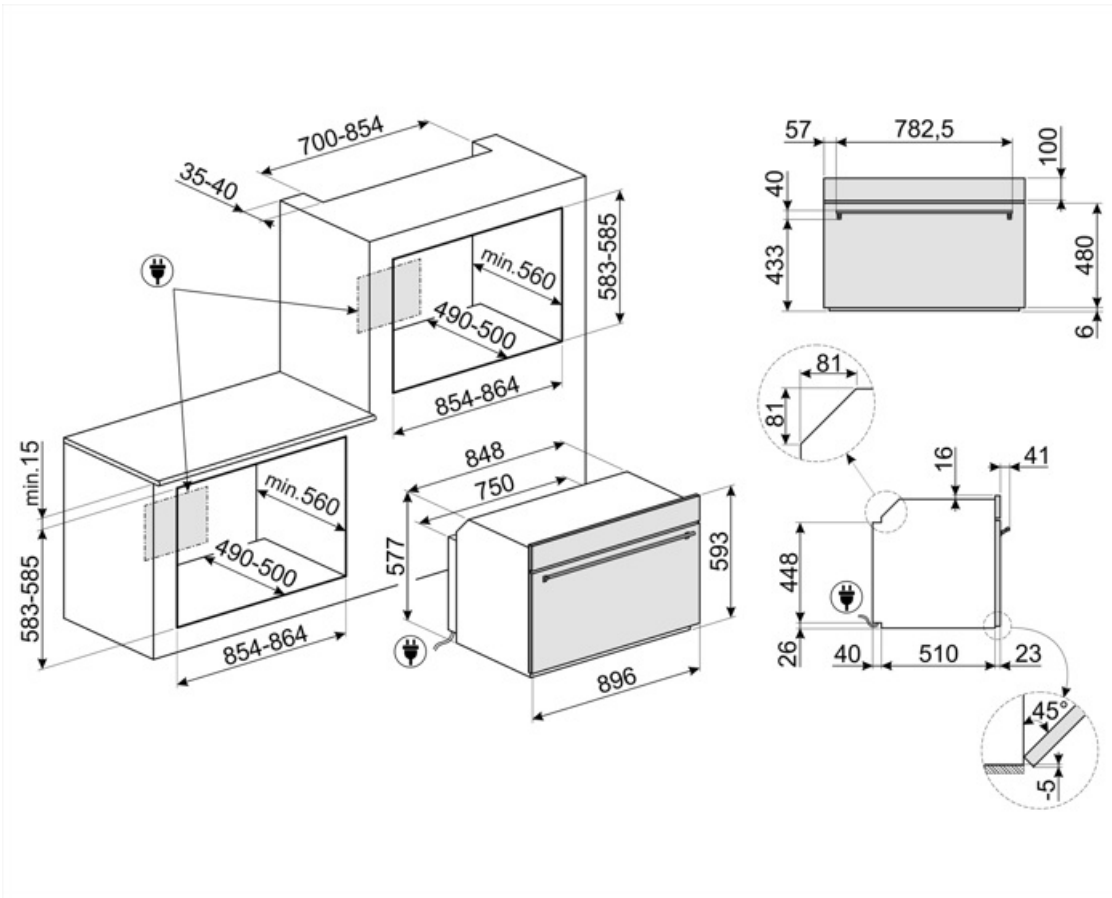

Rack with back and side stop 1
 Enamelled deep tray (40mm) 2

Insert gird 1
 Telescopic Guide rails, total Extraction 1

Electrical Connection

Voltage 220-240 V
 Current 18 A
 Nominal power 4000 W

Voltage 2 (V) 380-415 V
 Frequency (Hz) 50/60 Hz
 Power supply cable length 115 cm

Not included accessories

GTP

Partially extractable telescopic guides (1 level) Extraction: 300 mm Material: Stainless steel AISI 430 polished

PPR9

Refractory pizza stone without handles. Squared shaped stone: L64xH2,3xP37,5 cm Suitable also for gas ovens, to be put on the griddle.

GTT

Totally extractable telescopic guides (1 level) Extraction: 433 mm Material: Stainless steel AISI 430 polished

Symbols glossary

 <p>Triple Fan Technology: The oven is equipped with an exclusive three fan system, which, combined with the increased power of the motors, enables excellent cooking performance. The two large side fans distribute the air around the outer perimeter of the cavity while the smaller central fan increases ventilation by creating a vertical vortex of heat. Accordingly, the temperature within the cavity is uniform, allowing food to be cooked evenly on all five levels, like in professional kitchens.</p>	 <p>A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.</p>
 <p>Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.</p>	 <p>Air cooling system: to ensure a safe surface temperatures.</p>
 <p>Defrost by time: with this function the time of thawing of foods are determined automatically.</p>	 <p>Defrost by weight: With this function the defrosting time is determined</p>
 <p>Quadruple glazed: Number of glazed doors.</p>	 <p>EASYGUIDE_72dpi</p>
 <p>Automatic lighting switches off: for greater energy savings, the lighting switches off automatically after one minute from the start of cooking.</p>	 <p>Electric</p>
 <p>Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.</p>	 <p>Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.</p>
 <p>Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.</p>	 <p>Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.</p>
 <p>Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.</p>	 <p>Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.</p>
 <p>Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.</p>	 <p>Circulaire + grill: Circulaire with upper element or grill: Similar to fan with upper element with the added cooking speed of circulaire, ideal for dishes with a crispy topping. When used with the grill the food will brown more quickly.</p>

-  **Circulaire:** The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.
-  **Grill element:** Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.
-  **Circulaire with upper and lower elements:** The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.
-  **The inner door glass:** can be removed with a few quick movements for cleaning.
-  **Side lights:** Two opposing side lights increase visibility inside the oven.
-  **Pyrolitic:** The Eco pyrolitic cleaning function can be selected when the oven has a lighter build up of dirt. This function has a maximum duration of 1.5 hours.
-  **ECO-logic:** option allows you to restrict the power limit of the appliance real energy saving.
-  **Rapid preheat:** The rapid preheat function can be used to reach the selected temperature in just a few minutes.
-  **The oven cavity has 5 different cooking levels.**
-  **Soft close:** all models are equipped with advanced function of smooth closing of the door, which allows the device to close smoothly and quietly.
-  **ECO:** The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.
-  **Fan with grill element:** The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.
-  **All glass inner door:** All glass inner door, a single flat surface which is simple to keep clean.
-  **KEEP_WARM_72dpi**
-  **Pyrolitic:** Pyrolitic cleaning cycles can be selected as necessary to automatically clean the oven interior.
-  **Warming up:** An option for dish warming and keeping the prepared meals hot.
-  **Air at 40°C** provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted
-  **Sabbath:** This function allows you to cook food during the Sabbath, the Holiday of rest in the Jewish religion, respecting the precepts. The oven works
-  **Smart Cooking System:** for the perfect cooking it is simply necessary choosing the kind and the weight of food and the cooking temperature: any other setting will be established automatically.
-  **Telescopic rails:** allow you to pull out the dish and check it without having to remove it from the oven entirely.

Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

The capacity indicates the amount of usable space in the oven cavity in litres.

The capacity indicates the amount of usable space in the oven cavity in litres.
