SCHOCKCOLLECTION

SCHOCK was established in 1924 and took the world by storm with the creation of the first granite sink in 1979, which to this day continues to be manufactured in Germany. The quality German engineered sinkware has been created using state-of-the art composite Nanogranite® materials.

A carbon fibre sink? Sounds high-tech and futuristic. In fact, **SCHOCK** carbon fibre composite sinks are made from a genuine material of the future – a world first. The special thing about carbon fibre is that it is both very light and very tough, ideal for sinks that are built to cope with anything you can throw at them.

It offers exceptional strength and durability, stain resistance and inert, antibacterial properties. The **SCHOCK** range includes 90 patents and over 200 sink models, in various colours and finishes. You can expect the material technology to be impact and stain resistant, heat resistant, food safe and also offer a dirt repellent effect. **SCHOCK** sinks are created to last and to leave the surface free of odour.

WHAT IS THE DIFFERENCE BETWEEN CRISTADUR AND CRISTALITE?

Our patented premium material CRISTADUR® boasts a lovely silky texture and feel, with intensely shimmering colours and the easy-care dirt repellent effects, CRISTADUR® models can be further enhanced with many premium features (such as matching trim) and have won numerous awards.

CRISTALITE® has a slightly rough, stoney surface finish and comes in many fashionable shades. It is the classic SCHOCK sink boasting a tough and easy-to-clean finish, The on-trend material not only looks great, it's also attractively priced.

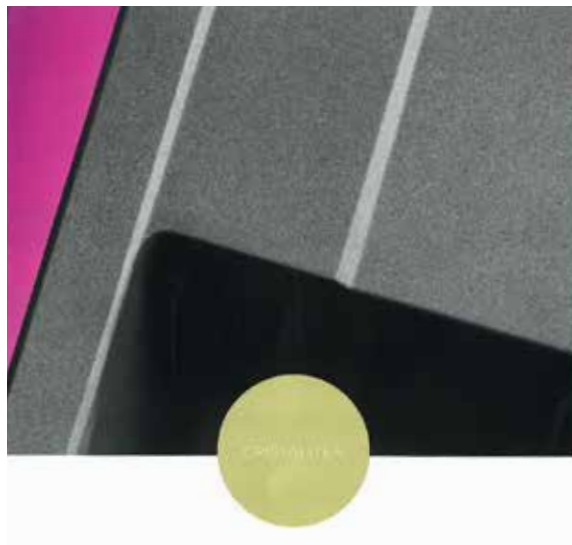

CRISTADUR®

- **Patented premium finish with silky texture and intense colours**
- **Dirt-repellent effect makes it extremely easy to clean**
- **Flushmounted installation and various premium features available**

CRISTALITE+®

- **Stoney, slightly rough finish**
- **On-trend material available in many fashionable, natural-looking shades**
- **Robust sink, beautiful in appearance**

CHAMBORD COLLECTION

Over the course of history, France has become synonymous with rich culture and strong heritage which is embodied through the spirit of **Chambord**. The desire for beautiful French craftsmanship is expressed through each product, from design to manufacturing and from raw materials to the finished product. Chambord have been using the same techniques, precision and pride since 1896. Bringing their product into your kitchen, you are bringing a piece of history and prestige.

These kitchen sinks are easy to clean, insensitive to temperature and effortlessly hygienic. Chambord sinks are statement as well as an object of utility at home in the grandest of kitchens.

DECORATED CHAMBORD HENRI

Intricately detailed and extremely elegant, our decorated HENRI range of Chambord sinks are the product of generations of tradition. Each of the three designs showcase the beauty and luxury of French Farmhouse design. Delicately hand-made in Europe, each piece is also made to order with a leadtime of 18 weeks. When you choose a decorated sink, you will also receive a certificate of authenticity on the quality and uniqueness of each piece.

PIAZZA RANGE

Our Piazza Finishes are achieved using a process called “Physical Vapor Deposition” (PVD). There are three stages to this process.

Firstly, the stainless steel used to manufacture the sinks surface is shot-peened to create a harder and more durable surface that is both scratch resistant and impact-resistant.

Once this is completed, a Titanium Oxide Coating is deposited on the surface of the sink as a pure metal coating. This process transfers the titanium at a molecule level providing an extremely hardwearing coloured layer. Lastly, a nano-resin layer of hydrophobic active substance provides a long lasting, ultra-thin, durable and easy-to-clean surface.

ABEY 316 MARINE GRADE STAINLESS STEEL

An Alfresco area would not be complete without a Sink and Kitchen Mixer that can stand the elements. Abey has created a range of 316 Marine Grade Stainless Steel Sinks and Kitchen Mixers which are functional as well as inspirational.

Marine Grade Stainless Steel 316, due to the presence of molybdenum, is considerably more resistant to corrosive environments than the standard 304 stainless you will find in many indoor kitchen sinks and tapware. Marine Grade 316 is appropriate and suitable for sea water environments, coastal and marine applications. Because of its greater resistance to oxidation, it is the only choice for an alfresco area.

GESSI COLLECTION

As a genuine Italian company, **Gessi** focuses on uncompromising craftsmanship, and a new style of living with designs that are to be experienced, not just admired. Everything Gessi creates, and every process involved in the creation, considers the environment in which we live in and the environment in which the product resides. This is one of the many reasons Gessi is actively sought after by architects, interior designers and creatives for not only their work space, but also their private residences, hotels and even yachts. Gessi is committed to designing innovatively using state-of-the-art technology, while also having a low environmental impact. They excel at creating sharp design and finishes, while using the highest quality material and meticulous Italian workmanship.

ARMANDO VICARIO COLLECTION

Located in Gozzano, Italy, **Armando Vicario** are renowned for their modern design and high-quality kitchen tapware. Their products have been selling for over 40 years, and have consistently used professionalism, experience and constant engagement to produce high-quality taps for a modern design and reliable “Made in Italy” mark. Sleek, simple and stylish — the Armando Vicario range displays European elegance that is designed to last and to impress.

Their well-articulated product range starts from modern single lever mixers in a young and functional design, to the most classic old time pieces.

GARETH ASHTON COLLECTION

Gareth Ashton captures the essence of global design. Its range is built on the latest technologies, practices and solutions in the industry to ensure their customer a pleasurable kitchen experience with modern tapware. Using their unique heritage of innovation, Gareth Ashton continues to bring contemporary style into the homes and spaces of Australia. Today, Gareth Ashton offers not only kitchen tapware solutions, but also a complete bathroom look with toilets, basins, baths, showers and accessories.

They use a contemporary design of minimalism, sleek lines and a combination of organic and angular shapes — Gareth Ashton is, and always will be, a perfect addition to any modern kitchen space.
