# New Zealand designed, innovative tapware since 1935

## **Beautiful Design**

Greens is the home of beautiful tapware – designed for the modern lifestyle. Our products are designed to inspire you to create an incredibly functional and desirable space. Sometimes, it is the little things in our lives that we love the most.

## **New Zealand Innovation**

Innovation is a key characteristic Kiwis are renowned for. Through constant research and development, we focus on delivering technologies that deliver both form and function for every situation

## **High Quality and Performance**

Experience products which meet the highest demands in terms of design and quality. Greens is an ISO 9001 certified company. Our products meet international quality standards including the Australian and New Zealand standard mark.

# Introducing the NEW Modular Range from Greens Tapware.

The Optima Plus modular range has been designed with adaptability at its core.

No longer limited by single function non-matching componentry, the modular range enables you to add features to your bathroom such as multiple mixer controls, cross functional diverters and additional handsets. Optima Plus was created for the home designer to have full flexibility in the architecture of creating a unique luxury bathroom specific to your desires or needs.

The range begins with the perfectly designed shower mixer, incorporating a balanced back plate and glamorous textured handle, the corner stone of the collection. Additional features can be added to your bathroom, such as an additional pin handle hand shower, or perhaps the diverter mixer that supports not only individual flow options, but also allows dual flow, all pieces are designed with interchangeable components.

The Optima Plus range allows you to create the bathroom you want. Rules are meant to be broken, design and functionality are forever, create your own bathroom experience.

2371505BB	PVD Brushed Brass
2371505GM	PVD Gun Metal
2371505BC	PVD Brushed Copper <i>*Coming July 2024</i>

# PRODUCT CARE & MAINTENANCE

Maintenance of the finish of your tapware is important. Here are a few simple tips to follow:

## All Finishes

Surfaces need to be cleaned regularly with a soft damp microfibre cloth using water with mild liquid detergent, then wiped dry to avoid water spots.

Do not use cleaning agents containing a corrosive acid or scouring agent, as well as cream cleaners (they are abrasive), as they may damage the surface which can void your warranty.

# WARRANTY GUIDE
