

Incasso X4 Mixer Body with Left/Right Side Outlet (120MM CTC)

X4.01-2WRF

Engineered for performance and built to last, the Incasso X4 redefines the standard for in-wall tapware bodies. Supporting leading waterproofing practices, designed for longevity, and engineered for ease of installation, it delivers confidence behind the wall. Its clever construction allows for effortless compatibility with PARISI's extensive collections, from styles to finishes, to complement your design and colour scheme. The Incasso X4 Mixer body with Left/Right Side Outlet (120MM CTC) is compatible with a wall mixer and spout on individual flanges. This configuration allows 120mm centre-to-centre spacing, with the option to position the spout to the left or right of the mixer. The mixer handle and spout mount separately on individual flanges, a favourite in bathrooms with a refined or architectural feel, it brings layout flexibility and a minimalist aesthetic to contemporary spaces.
