Introducing your new 28L Built-In Microwave

Installation

When preparing the cavity, the cavity and built-in cabinet will need to conform with the dimensions and specifications in the diagram of page 08 of the user manual. Take care not cover any ventilation slots or air intake points.

Ensure that the power cord is not trapped or kinked, and that the microwave is carefully installed in the center of the cabinetry.

For a complete installation guide, refer to the provided user manual, from pages 06–11.

Setting the Clock

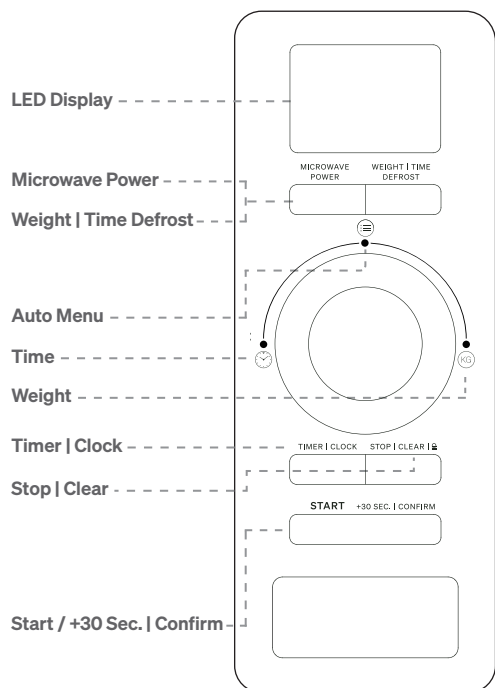

1. When the microwave oven is turned on for the first time, the LED will display 0:00 and sound an alert.
2. Press the **TIMER | CLOCK** twice to select the clock function, the hour figures will then flash. Then turn the dial clockwise to adjust the hour figures.
3. Pressing the **TIMER | CLOCK** button confirms the hour. The minute figures will then flash, indicating they are ready to be selected.
4. Turn the dial clockwise to adjust the minute figures and press the **TIMER | CLOCK** button to confirm your clock setting. The : will flash, and the time will then be set.
